QUOTATION #Q4-2021

This number must appear on purchase order to receive special prices.

This promotion is valid from October 1 to December 31, 2021 for customers and distributors in Canada only.

Weidmüller

MultiMark THM WO-QX

Special Price from \$0.08*

THM WriteOn cable markers on reels are used for labelling conductors and cables with an outside diameter of up to 36 mm. The transparent adhesive strip fixes and protects the printing on the marker surface.

- Protection of the marking against dirt and abrasion by wrapping it with the transparent adhesive strip
- Simple and quick printing with the high-quality thermal transfer printers

PROmax series

Special Price from \$80.00

PROmax offers diverse solutions for demanding automation. Our high-performance and durable PROmax switch-mode power supply units are designed for especially demanding requirements. PROmax reliably copes with a continuous overload of up to 20% or short-term peak loads of 300% occurring with high control cabinet temperatures.

- High boost capability and full power are also made possible in a wide temperature range. Our switch-mode power supply units can be used around the world and are also suitable for confined spaces thanks to their low width.
- Together with our uninterruptible DC USPs, the diode modules or CAP modules, you can create a power supply solution that is tailored to your requirements.

Q-Specials

RIDERSERIES Relays

Special Price from \$9.00

High-quality universal relays for industrial applications. A single kit part number - includes base, relay, LED indicator and lever all in one.

- 24Vdc and 115Vac RCI Series with 2 change over contacts in 15.5mm width
- 24Vdc and 115Vac RCM series with 4 change over contacts in 28.0mm width
- Screw clamp versions

Consult factory for other versions available - various input voltages, various contact configurations (1CO, 2CO, 3CO & 4CO), screw clamp and push-in connections.

Catalog #	Description	Regular Price	Special Price

Stripping tool AM 25 and AM 35

Special Price from \$40.00

Suitable stripping tools effectively accelerate many assembly processes. The processing of large cables, in particular, demands the right tool. With our stripping tools AM 25 and AM 35, cable diameters up to 35 mm can be prepared quickly and efficiently for further processing.

- Outstanding ergonomics allow fast and safe working
- Designated cutting angle settings ensure precise and reproducible work results
- The continuous adjustability of the cutting depth permits maximum application versatility

Image is for illustrative purposes only, please refer to product description. We reserve the right to make technical changes.

Intuitive visualization tools

u-view IPCs and u-create PROCON-WEB

Let's Connect.

Flexible implementation of visualization, control and IoT applications – reliable industrial PCs for your automation

High-performance IPCs and Panel PCs enable the flexible control, operation and monitoring of machines and systems. u-view IPCs and Panel PCs from Weidmüller are known for their high reliability and are designed for state-of-the-art visualization, control and IoT applications.

Forward-looking flexibility through web-based visualization u-create PROCON-WEB – the scalable and platform-independent HMI software

u-create PROCON-WEB simplifies project planning with dynamic, multi-touch capable visualization solutions for your automation. The integrated web server allows the use of different HTML5-capable clients without the installation of additional software. The extensive portfolio of communication drivers allows flexible integration into existing or new machines and systems.

u-create PROCON-WEB is also available for **u-control hardware, u-view touch panels, IPCs and Panel PCs** which enables highly functional automation solutions from a single source.

Your special advantages:

- Web-based and platform-independent
- Dynamic user interfaces with adaptive design
- Full compatible with our u-control controls, including attractive license concept
- Comprehensive portfolio of drivers for access to the controllers of all manufacturers
- Easy integration of different languages through Unicode
- Efficient engineering due to object-oriented layout/container and Class/Instance Concepts
- User and rights management
